Catalogue Numbering

A two-part coding system has been adopted, e.g., ID1000-100. The first part is an alphanumeric system which aids in locating the program on our library shelves. It also serves to identify the discipline of the subject matter, e.g., ID (Interdisciplinary). The second part identifies the program in our loan library data base.

Loan Service Conditions

The CSMLS offers for borrowing standards and guidelines in the laboratory disciplines. Materials are print-based and are loaned free of charge. (This is a service available only to CSMLS members.)

Programs should be returned two weeks after they are received unless arrangements are made with the CSMLS Office.

Borrowers must pay for the return postage.

Included with each program is a questionnaire, which we ask that you please complete and return with the program. All programs must be returned in the packaging provided. Each package will contain a CSMLS return addressed envelope.

Numérotage du catalogue

Un système de codage en deux parties a été adopté, ex. ID1000-100. La première partie est un système alphanumérique qui aide à localiser le programme sur les rayons de la bibliothèque. Il sert également à identifier la discipline, ex. ID (Interdisciplines). La seconde partie identifie le programme dans notre base de données informatiques de la bibliothèque de prêt.

Modalités du service de prêt

La SCSLM offre un service de prêt de documents sur les normes et lignes directrices. Tout le matériel est offert sur support imprimé, sauf indication contraire. Ces programmes sont prêtés gratuitement. (Ce service est offert aux membres de la SCSLM seulement.)

Ils doivent être retournés deux semaines après réception sauf s'il y eut arrangements au préalable avec la SCSLM. On ne peut commander que deux programmes à la fois à moins d'une entente spéciale préalable avec la SCSLM.

Les bénéficiaires du prêt doivent défrayer le retour postal en première classe.

Un questionnaire est inclus avec chaque programme. Veuillez s'il-vous-plaît le compléter et le retourner avec le programme.

Tous les programmes doivent être retournés dans un même emballage. Chaque emballage contiendra une étiquette de retour adressée à la SCSLM.

Organizations that Offer Standards and Guidelines / Organisations offrant les normes et lignes directrices

Publications of the Clinical and Laboratory Standards Institute (CLSI)

The Clinical and Laboratory Standards Institute is an interdisciplinary, non-profit organization incorporated in 1968. Representatives from the profession, industry and government form the committee to promote the development and use of national and international standards that are needed for improved operation of clinical laboratories. Once the draft of a standard is accepted by the board of directors of CLSI, it is categorized as a proposed standard and goes through exhaustive scrutiny as it moves through the tentative state to become an approved standard. Interested persons can write to CLSI and comment on the standards.

Following is a list of standards available from CSMLS through the continuing education loan library service.

Publications du Clinical and Laboratory Standards Institute (CLSI)

Le Clinical and Laboratory Standards Institute est un organisme interdisciplinaire à but non lucratif, incorporé en 1968. Ce comité est formé de représentants de la profession, d'hommes d'affaires et de représentants gouvernementaux dans le but de promouvoir le développement et l'emploi de normes nationales et internationales nécessaires à une meilleure exploitation des laboratoires cliniques. Les sujets abordés se divisent en trois catégories: ils sont d'abord proposés, mis à l'essai, et constituent par la suite des normes approuvées. Durant la phase de proposition et d'essai, quiconque peut intervenir, selon son gré ou au besoin.

Ordre Professionnel des Technologistes Médicaux du Québec (OPTMQ)

L'Ordre professionnel des technologistes médicaux du Québec a pour principale fonction la protection du public. Pour ce faire, il se doit de mettre en place les mécanismes nécessaires à la vérification et au maintien de la compétence de ses membres. Les normes de pratique sont un des outils que l'Ordre s'est donné pour accomplir sa mission. Elles visent à appuyer les technologistes médicaux dans leur démarche pour offrir des services de qualité.

Tout commentaire et suggestion concernant nos normes peuvent être transmis à l'Ordre à l'adresse suivante :
