

APRIL 30th & May 1st, 2021

Virtual Symposium Hosted by
The Michener Institute of Education at UHN

BENCHMARKS is an annual symposium for Medical Laboratory Technologists, Assistants, Administrators, students, and other Medical Laboratory Sciences professionals to build skills and showcase works-in-progress, innovations in practice, and completed research. Medical Laboratory professionals from all specialties are invited to participate in what will be a dynamic opportunity for knowledge sharing and building professional networks.

BENCHMARKS will feature:

- A pre-symposium educational workshop
- Keynote speakers from eminent Medical Laboratory Sciences leaders
- Oral and Poster presentations showcasing recent practice innovations, quality improvement projects and research by colleagues in the Medical Laboratory Sciences Community
